

Capped Flanged Mountings

Flanged Mountings give high levels of deflection, providing excellent levels of vibration reduction and shock absorption both in the vertical and horizontal planes.

They are particularly suited to isolating slow speed equipment.

The mountings are supplied with a metal top cap to ensure the load is evenly spread on the rubber surface and also provides splash protection against fuel and oils.

Advantages:

- Ideal for Lightweight Equipment
- Easy to Install
- Low Cost
- Vibration Isolation up to 95%

Applications:

- Pumps
- Fans
- Compressors

Part No	A	B	C	D	E	F	G	H
FM4020	40	20	M6	19	29	52	64	6.2
